

all my life's a circle

All My Life's a Circle
Stare at your ghostly white face and
wonder
How I can paint color again
Watch you throw out the food you
couldn't eat
And the faith you wouldn't buy
So I know I have to go shopping
again

All my life is a circle

Clean up the mess you threw on the
floor
Fix the doors you broke with your
hands
Bandage the bones and cover the
blood
So that you can make me fall again

All your life is a circle

Cringe at your smile as you falter
and lie
Say you'll get better if only you try
Dry all the tears that flood and drown
And I believe you 'cause

All our life is a circle
